

Web Developer with 4+ years of experience in creating WordPress websites. Proven ability to drive a project from scratch, with a focus on resources, responsiveness and accessibility. Finding the best compromise for the users is an ongoing process, that requires constant research and improvement.

## EXPERIENCES

### TappWater

[tappwater.co](http://tappwater.co) - Barcelona, Spain

Web Developer / Remote Contract

Jan 2023 / Jan 2024

In charge of the eCommerce multisite running with WordPress and WooCommerce. I have been developing a Full Site Editing theme to improve usability. Being the only developer internally, I've been implementing guidelines, version control, and coding standards for the third party developers. I have worked on refactoring the code of custom plugins, and gained 10-15% in each category of Google LightHouse analysis.

### Orchestrated

[orchestrated.ca](http://orchestrated.ca) - Hamilton, Canada

Web Developer / Remote Contract

Mar 2021 / Dec 2022

In charge of the WordPress projects (27), I focused on creating our own custom theme instead of a page builder. This helped me remove unnecessary plugins and cutting down my monthly maintenance by 30%. As the quality increased, it converted in a jump of 12% in the sells of customized theme.

#### RBM Architecture - [rbm-architecture.ca](http://rbm-architecture.ca)

- ◆ Made a Gutenberg Block for a GoogleMap that loads the information from a CPT, and for a Slider.
- ◆ Created a plugin to import the information of the CPT from an Excel document (using CSV file).

#### Architect's Corner - [architectscorner.ca](http://architectscorner.ca)

- ◆ By reusing the code, I reduced production time by 50% allowing us to focus on new functionalities.
- ◆ Compared to Page Builders, Google LightHouse statistics improved by 10-30% reaching 95 to 100%.

#### Hamilton Community Foundation - [hamiltoncommunityfoundation.ca](http://hamiltoncommunityfoundation.ca)

- ◆ I had to implement custom loops for CPT's in multiple pages by creating a Gutenberg Block.

#### MGR Workforce – [mgrworkforce.com/job-postings/](http://mgrworkforce.com/job-postings/)

- ◆ Build a Plugin to realize CRUD operations on a CPT, by reading an API.
- ◆ Implemented Schema Markups in the CPT, which improved the visibility by 13%.

### Your Life Counts

[yourlifecounts.org](http://yourlifecounts.org) - Toronto, Canada

Lead Web Developer / Remote Volunteer

Apr 2020 / Now

- ◆ Leading a team of Web Developers & Designers to improve and maintain the websites.
- ◆ Implementing workflows and processes, to improve autonomy of everyone.

### Projects

#### TricksList - [chillax.tv/TU/](http://chillax.tv/TU/)

2018

- ◆ Created a "To-do-list like" dedicated to skateboarding tricks using vanilla PHP/ MySQL.

#### Chillax.tv - [chillax.tv](http://chillax.tv)

2013

- ◆ Rebranded a skateboarding blog and developed a WordPress Theme.
