

Web Developer with 3+ years of experience in creating WordPress websites. Proven ability to drive a project, with a focus on resources, responsiveness and accessibility. Finding what is the best for our customers is always an unfinished process, that needs to be tackle to unsure we are providing them the best product.

EXPERIENCES

Orchestrated

orchestrated.ca - Hamilton, Canada

Web Developer / Remote Contract

Mar 2021 / Now

In charge of the WordPress projects (27), I focused on coding manually our own solutions, that we will be applying on our different projects. This helped me remove unnecessary plugins and cutting down my monthly maintenance by 30%.

Architect's Corner - architectscorner.ca

- ♦ To create a Custom Theme, I chose to create a main theme and customizing it with a child theme.
- ♦ By reusing the code, I reduced production time by 50% allowing us to focus on new functionalities.
- ♦ Compared to Page Builders, Google LightHouse statistics improved by 10-30% reaching 95 to 100%
- ♦ The projects design and quality increase, converted in a jump of 12% in the sells of customized theme.

Hamilton Community Foundation - hamiltoncommunityfoundation.ca

- ♦ I had to implement custom loops for CPT's in multiple pages and I decided to create Gutenberg Blocks.
- ♦ By providing the ability for the users to adapt the loop, they can create complex pages in few clicks..

MGR Workforce – mgrworkforce.com/job-postings/

- ♦ Build a Plugin to realize CRUD operations on a CustomPostType, by reading an API.
- ♦ Implemented Schema Markups in the CPT, which improved the visibility by 13%

Your Life Counts

yourlifecounts.org - Toronto, Canada

Lead Web Developer / Remote Volunteer

Apr 2020 / Now

- ♦ Leading a team of Web Developers & Designers to improve and maintain the websites..
- ♦ Implementing workflows and processes, to improve autonomy of everyone.
- ♦ Hosting four websites on a WordPress multisite, making maintenance four times faster.

Projects

TricksList - chillax.tv/TU/

2018

- ♦ Created a "To-do-list like" dedicated to skateboarding tricks using vanilla PHP/MySQL.

Chillax.tv - chillax.tv

2013

- ♦ Rebranded a Parisian skateboarding blog and developed the WordPress Theme, leading to be in contact with brands for events and interviews.
